**RISKS**  
The Fund is subject to stock market risk, meaning stocks in the Fund may fluctuate in response to developments at individual companies or due to general market and economic conditions. Also, because the Fund generally invests in 15 to 25 companies, share value could fluctuate more than if a greater number of securities were held. Smaller company stocks may be more volatile with less financial resources than those of larger companies. Holdings are subject to change and discussion of holdings are not a recommendation to buy or sell any security. Current and future holdings are subject to risk.
