IRS regulations require the custodian or trustee of your IRA to withhold federal income taxes from the conversion distribution at a rate of 10% unless you elect not to have withholding apply. Withholding will apply to the entire amount of the conversion distribution, including the amount of any nondeductible contributions that may have been made to the IRA. You may not convert any portion of Required Minimum Distributions (RMDs).

Please select one of the following:

- I select to **NOT** have federal Income tax withheld. (This option is only available for accounts registered with an address in the United States.)
- Withhold 10% federal income tax
- Withhold _____ % federal income tax (must be 10% or more)

B. State Withholding ▪ Your state of residence will determine your state income tax withholding requirements, if any. Those states with mandatory withholding may require state income tax to be withheld from payments if federal income taxes are withheld or may mandate a fixed amount regardless of your federal tax election. Voluntary states let individuals determine whether they want state taxes withheld. Some states have no income tax on retirement payments. Please consult with a tax advisor or your state's tax authority for additional information on your state requirements.

- I elect NOT to have state income tax withheld from my retirement account distributions (**For Mandatory States Only**).
